

SHISHIR KUMAR

Software Developer

(6 years Exp.)

📞 7004630056 | 📩 Shishirkx@gmail.com

Professional Summary

I am having experience of **6 years** as a Mobile developer. I have worked on more than **80+ projects** in which **45+** are live on google play console. I have good knowledge of Android development with JAVA, Kotlin also have hands on Flutter development

Work Experience - 6 years

ITOP PVT LTD (Senior Android Developer)

⌚ 09/2023 – 06/2025

- Developed and maintained Android applications using Kotlin, Java, and Firebase with KTOR
- Handled multiple app modules (like Chat, Calendar, Call)

Birlasoft PVT LTD (Senior Android Developer)

⌚ 10/2021 - 06/2023

- Worked on various modules of the Android application "UltraTech Trade Connect app" and also worked on collaboration with other team on other projects.
- Contributed to the full software development life cycle, including design, development, and delivery. Used AWS Amplify with Java and Kotlin.

Havfly (formerly Invincible Infotech) (Senior Android Developer)

⌚ 03/2020 - 04/2021

- Focused on developing Mobile applications (Android and IOS with flutter) and implementing new functionalities. Worked on many projects with Java, Kotlin, Flutter.
- Collaborated with team for software system architecture and solutions

C2S Sellers PVT LTD (Senior Android Developer)

⌚ 10/2019 - 02/2020

- Designed and developed Android apps with high performance and user-friendly interface
- Used Kotlin and Java extensively for app development

XSIS TECHNOLOGIES (Senior Android Developer)

⌚ 08/2018 - 09/2019

- Involved in design and development of Android applications
- Implemented RESTful services and worked extensively with Firebase.

Strength

• Android Development - 6 years

(Core Java - 6 years, Kotlin - 4 years)

Strong proficiency in Android Development with extensive experience in various frameworks

• Flutter Development - 2 years

Hands-on experience with Flutter development and technologies

• Project delivery excellence

Successful delivery of more than 80 projects in career by now in which more than 45 went live on Play console/App store

• Team collaboration skills

Collaborative software development and team collaboration.

• Technology Awareness & Trends

Staying updated with the latest advancements in software development, including AI integration.

Technical Skills

• Programming Languages:

Java (6 years), Kotlin (4 years), Dart (2 years), C & C++

• Frameworks:

Android SDK, Flutter, Jetpack Compose

• Architectural Patterns:

MVVM, MVP, MVC

• Backend & API Integration:

Retrofit, Volley, Socket, KTOR, AWS Amplify

• Database Management:

Firebase Database, Room Database, SQLite, Realm

• Cloud & Third-Party Integrations:

Firebase (Storage, Database, Push Notification, Machine Learning), AWS Amplify, Payment Gateways

VANISB LAB TECHNOLOGIES (Android Developer)

10/2017 - 04/2018

- Started as a trainee, subsequently promoted to Android Developer position
- Developed Android applications and debugged software problems effectively

• State Management & Live Data Handling:

LiveData

• Communication & Messaging Services:

Twilio, Agora, Firebase

• Mobile Advertising & Monetization:

Mediation

Ads

Educational Background

• B. Tech: Computer Science

SRMIST, Kurukshetra University (CSE) | 2013 – 17 | 72%

• 12th: CBSE

Jean Paul's High School, Ara | 2013 | 66%

• 10th: CBSE

Jean Paul's High School, Ara | 2010 | 9.0

Project Summary

Short Video Sharing app, Cab app, Dating App, Chat App (with Firebase and Socket), E- Commerce app, Live Streaming App, Audio & Video Calling, Online Video Streaming app, Study & Online Exam Platform app, Online Recharge bill payment and online flight booking app, Hospital Management app (for booking appointment selling medicine, and Consulting doctors). Classified app, Cricket Score app, Firebase ML app, Document Container app (Drive)

Academic Achievements

- Received meritorious certificates in every class
- Scored **96.3%** in Logical Ability test conducted by AMCAT in April 2017

Certification

- JAVA
- Android

Software Worked on

- Microsoft Office
- Eclipse
- Turbo C/C++
- Dev-C++
- Android Studio
- Flutter
- PyCharm
- Visual Studio
- Blender 2.68a (for Animation)
- Alice 3 (for Animation)
- Game Maker Studio

Position of Responsibility

- Was Perfect of school from 7th to 9th standard
- Was CR in college in 3rd as well as 4th year
- Captain of school & college cricket team
- Acted as an Umpire in School Cricket for junior/senior teams

Additional Information

- Open to **relocation and remote work opportunities**.
- Passionate about **AI & ML integration in mobile applications**

Projects (80+ in which 45+ are live on Google play)

- ❖ **Zillit (Film Industry App)**
 - **Description:** Comprehensive platform for call, chat, pre-production, continuity, and industry networking.
 - **Tech:** Kotlin, Java, Firebase, KTOR, MVVM
 - **Client:** ITOP
 - **Involved** in development of modules like Project management, Device management, Calendar, Tools like Forms Signature, Pre-Production, Post Production, Deal Memo and Wardrobe, Location, Casting, Continuity and also involved in managing and bug fixings of Audio/Video calling and other chat modules.
 - <https://play.google.com/store/apps/details?id=com.zillit.zillitapp>
- ❖ **DigiLocker (Government of India)**
 - **Description:** Digital document storage & verification app with profile, ABHA, & push notification modules.
 - **Tech:** Kotlin, Java, Firebase, Room Database, Retrofit, C++, JNI, Android NDK
 - **Client:** Freelance
 - **Involved** in developing modules like Digilocker drive, Issued Documents, Profile, ABHA, Nominee and many more including Push notification.
 - <https://play.google.com/store/apps/details?id=com.digilocker.android>
- ❖ **UltraTech Trade Connect**
 - **Description:** B2B app for cement trade, including order placement, finance, and sales tracking.
 - **Tech:** Kotlin, Java, Firebase, AWS Amplify, Retrofit
 - **Client:** Birlasoft
 - **Involved** in developing modules Place Order Multi Retailer Module, Finance Section, Retailer Sales, BPD user's new section added and so many.
 - <https://play.google.com/store/search?q=ultratech+trade+connect>
- ❖ **Scanyourway (live)**
 - **Description:** AI-powered multi-utility app with QR/barcode scanning, multi-language translation, speech-to-text, and image-based search.
 - **Tech:** Kotlin, Firebase ML, AdMob
 - **Client:** For myself
 - **Involved** in developing complete module from development to deployment. It has AI text scanner, translator.
 - <https://play.google.com/store/apps/details?id=com.sk.scan>
- ❖ **PC Deals (live)**
 - **Description:** The App offers a wide variety of electronic items and softwares like windows, Anti Virus and computer parts.
 - **Tech:** Kotlin, Firebase, Room Database, Retrofit, Paytm.
 - **Client:** Havfly
 - **Involved** in developing complete module from development to deployment.
 - <https://play.google.com/store/apps/details?id=com.havfly.pcdeals>
- ❖ **Filmyplex (live)**
 - **Description:** The App offers a wide variety of genres, including love and romantic, drama movies
 - **Tech:** Kotlin, Java, Firebase, Room Database, Retrofit, Razorpay and Phone-pe
 - **Client:** Havfly
 - **Involved** in developing complete module from development to deployment.
 - <https://play.google.com/store/apps/details?id=com.filmyplex.movies.app&hl=en>
- ❖ **Cricket Bazzar (Live)**
 - **Description:** Live match scorecards, fast commentary, match odds, schedules, rankings, stats, and cricket news.
 - **Tech:** Java, PHP, Firebase, AdMob.
 - **Client:** Havfly
 - **Involved** in developing complete module, from development to deployment to the play console.
 - https://play.google.com/store/apps/details?id=com.havfly.cricket_bazaar

- ❖ **RedRas (Live)**
 - **Description:** It is a **dating app** that includes live video streaming with Agora and Video audio calling using Twillo Integration . Users can make new friends and Chat with them. It has InApp billing integration, Stripe payment Gateway, Paytm payment Gateway, Push Notification, Auto Calling, Auto messaging, and so many features added.
 - **Tech:** Java, PHP, Firebase, Stripe, Paytm, AdMob.
 - **Client:** Havfly
 - **Involved** in developing complete module, from development to deployment to the play console.
 - <https://play.google.com/store/apps/details?id=com.havfly.redras&hl=en>

- ❖ **All Exam Preparation App (Live)**
 - **Description:** Learning app with video lectures, quizzes, practice tests, results tracking, and PIP mode for video playback.
 - **Tech:** Java, PHP, Firebase, Google AdMob, Razorpay.
 - **Client:** Havfly
 - **Involved** in developing complete module, from development to deployment to the play console.
 - <https://play.google.com/store/apps/details?id=com.tamilvelai.tnpscbankingmaterials>

- ❖ **Ultra Tok (Live)**
 - **Description:** Customizable social video-sharing app with video dubbing, filters, push notifications, and chat features.
 - **Tech:** Java, PHP, Firebase, Stripe, Paytm, Google AdMob.
 - **Client:** Havfly
 - **Involved** in developing complete module, from development to deployment to the play console.
 - <https://play.google.com/store/apps/details?id=com.havfly.ultratok>

- ❖ **Camartists (Live)**
 - **Description:** This app has been created for users to sell & rent their Art & Accessories Equipments & Accessories. Razorpay has been used for online payment system. A **Classified app**.
 - **Tech:** kotlin+Java(for front end), Php(backend api), Firebase, Razorpay, Goolge Admob.
 - **Client:** Havfly
 - **Involved** in developing complete module, from development to deployment to the play console.
 - <https://play.google.com/store/apps/details?id=com.group.classified.camartist>

- ❖ **YesMaa (Live)**
 - **Description:** It is widely known as best **onlineB2B ecommerce Electronics** product platform, mainly targeted to electronic accessories and markets. User uses it to get in touch with sellers directly.
 - **Tech:** kotlin+Java(for front end), Java(backend api), Firebase.
 - **Client:** C2S Sellers
 - **Involved** in developing complete module, from development to deployment to the play console.
 - <https://play.google.com/store/apps/details?id=com.c2s.yesmaa>

- ❖ **Jollify Fashion**
 - **Description:** It is an e-commerce app, mainly targeted to clothing accessories, targeted mainly for women. Payment gateway of **PAYU Money** added in it. It was a clone of **Draz**.
 - **Tech:** Java (for front end), PHP (backend api), Firebase.
 - **Client:** C2S Sellers
 - **Involved** in developing complete module, from development to deployment to the play console.

- ❖ **Himansh Fashion**
 - **Description:** It is an e-commerce app, mainly targeted to clothing accessories, targeted mainly for men. Payment gateway of **PAYU Money** added in it.
 - **Tech:** Java (for front end), PHP (backend api), Firebase.
 - **Client:** C2S Sellers
 - **Involved** in developing complete module, from development to deployment to the play console.

- ❖ **Labels**
 - **Description** It is an e-commerce app, mainly targeted to clothing accessories and apparels. Payment gateway of **ESEVA** has been added in it. **A clone of Myntra**.
 - **Tech:** Java (for front end), PHP (backend api), Firebase.

- **Client:** C2S Sellers
- **Involved** in developing complete module, from development to deployment to the play console.
- ❖ **KDGO (Live)**
 - **Description:** It is a business app, having **e-commerce**, **Recharge services** with **Bill payment** services, also **flight booking** and **hotel booking** coming in this app. Users can pay through **Wallet** or using **Razorpay**.
 - **Tech:** Java, PHP, Firebase, Razorpay.
 - **Client:** XSIS Technology
 - **Involved** in developing complete module, from development to deployment to the play console.
 - <https://play.google.com/store/apps/details?id=com.kdgo.in>
- ❖ **ACPL World (Live)**
 - **Description:** Business app with e-commerce, recharge services, bill payments, video conferencing, and social wall.
 - **Tech:** Java, PHP, Firebase, Razorpay.
 - **Client:** XSIS Technology
 - **Involved** in developing complete module, from development to deployment to the play console.
 - <https://play.google.com/store/apps/details?id=com.t20cs.in>
- ❖ **Mini Tennis Game**
 - Description: Single-player arcade game with a unique ball physics system and increasing difficulty levels.
 - Tech: Core Java, MySQL.
 - Client: Myself
 - Involved: Developed completely in the college time in complete Java.
- ❖ **Grab Cab App**
 - Description: Ride-hailing app with real-time tracking, ride booking, and payment integration similar to Ola/Uber.
 - Tech: Java, Firebase, PHP, C++, JNI, Android NDK
 - **Client:** Vanish
 - **Involved** in developing complete module, designing to api Integration.

More Projects:

- **Sonakshi Children Hospital (live):** A Hospital management app with online booking and Consultation.
- **FIKKA:** This app has two modules, one is for ENTREPRENEUR and the other is for INVESTORS. There is a GROUP related to a particular industry of 4 people which consists of 3 investors and one Entrepreneur. They can also CHAT with each other using IN-APP CHAT having PUSH NOTIFICATION as well.
